## Our Program:

Bible Memory is one of the most important aspects to a child's spiritual growth and education. Memorizing scripture places the Word of God into the hearts and minds of children. While learning the exact words and verse is important, so too is the understanding of the meaning and intention behind each and every scripture you commit to memory. The verses we've chosen for our products here at BM4K are intended to be the starting off point for authentic conversations with your children each week. Use them as a launching pad to help facilitate and nurture a deeper relationship with our heavenly father.

*"And these words, which I command thee this day, shall be in thine heart: And thou shalt teach them diligently unto thy children, and shalt talk of them when thou sittest in thine house, and when thou walkest by the way, and when thou liest down, and when thou risest up. And thou shalt bind them for a sign upon thine hand, and they shall be as frontlets between thine eyes. And thou shalt write them upon the posts of thy house, and on thy gates." Deuteronomy 6:6-9 (KJV)*

# COLORFUL VERSE CHART

## BIBLE VERSE COLORING PAGE

### +Memory Cards or Stickers

### Full Color Scripture Memory Chart

These engaging charts are perfect for introducing the verse to your children. Each verse includes a corresponding image to aid in scripture memorization. As children progress through the program you can cover the bottom text and provide them with a visual reference to cue memory recall. Charts can be hung in the classroom or stored in page protectors in a three ring binder. Each morning revisit the verse and build upon the previous day's memory accomplishments.

### Scripture Verse Coloring Page

These coloring pages are another great way to build visual recall skills. Children color the corresponding visual and practice handwriting skills by writing the verse below. Additionally, the coloring pages are essentially a Black and White version of our Scripture charts, so if you'd rather not print the verse charts in color you can print these instead.

### Scripture Stickers or Flashcards

Children of all ages love stickers! Print our Bible verse sticker sheets on Avery Sticker Sheets #6874 and use them to encourage children to memorize their verse. In a church setting these are excellent ways to send verses home with child. At home stickers can be given as rewards for completing a verse or stuck onto a progress chart. Print additional pages on cardstock paper to create flashcard size memory tools. These 3x4" flashcards could be used inside a memory file box, photo album or a key ring of verses.

## Weekly Journals

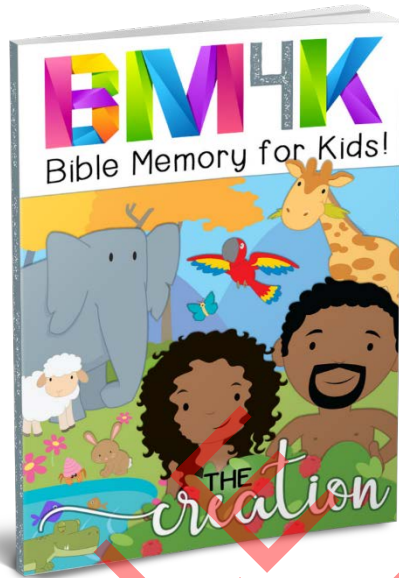

When using our product in a family or homeschool setting we recommend printing out the provided journal pages. We provide you with three different levels which can be reproduced as needed to complete the program. Each level provides children with four small daily tasks to complete. It is recommended that children complete these tasks Monday-Thursday, and save Friday as a day of review for all previous verses learned.

**Level 1:** This level is recommended for our youngest students, those that cannot yet read or write independently. Suggested age range is 3-5 years old.

**Level 2:** This level is designed for children who are able to read and copy written words, but may tire from writing out the entire verse each day. Instead they are asked to write smaller bits of information each day. Suggested age range is 5-8 years old.

**Level 3:** This level is designed for older children who are able to write out the entire verse each day for practice. Self-reflection is provided on the final day for children to apply the verse to their daily lives.

## **Table of Contents:**

The Creation Verse Charts (KJV)

The Creation Coloring Pages (KJV)

The Creation Sticker Sheets (KJV)

This collection includes an alternative set of charts, coloring pages and stickers that approach days of creation in a way that is understandable for younger children. While these pages do not contain Bible memory verses , they do aid in the memorization of what was created each day and can be used independently or alongside the scripture memory set.
