Alphabet Pack: Geoboard Mats

REQUIRED MATERIALS:

- Laminator or Page Protectors
- Dry Erase Marker
- Ruler
- Task Card Storage Boxes (Optional)

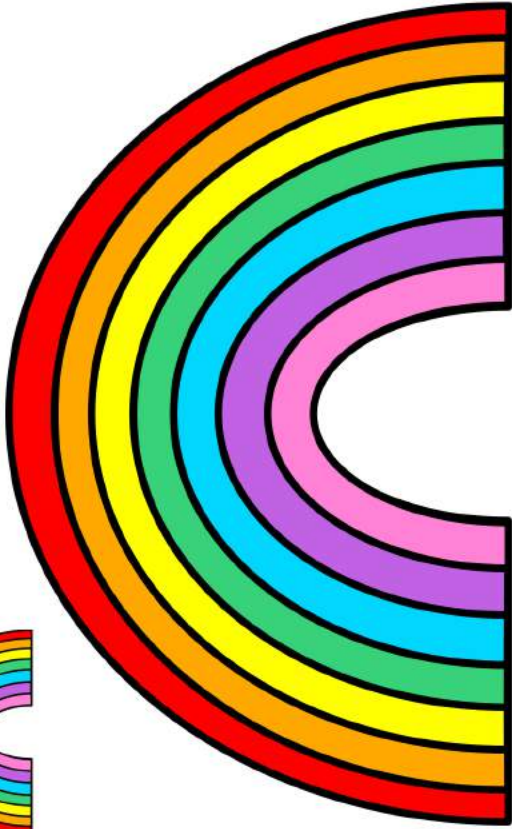

What's Included:

This pack includes 44 symmetry task cards (on 11 sheets of paper) and 15 follow-up worksheets and activity pages for students to expand their knowledge of lines of symmetry. The task cards cover fun, seasons and holiday themes as well as 12 different shapes. Activity pages ask students to trace or draw in the missing half, or to find the line of symmetry.

How to Use:

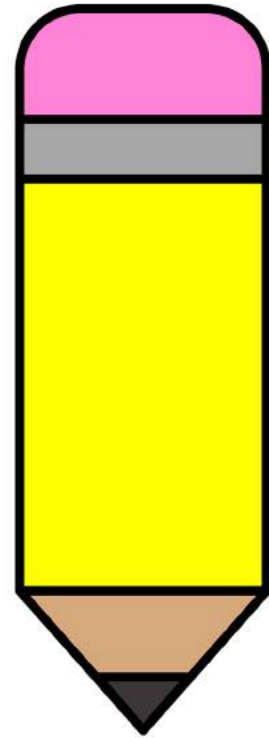

These task cards are designed to fit perfectly inside standard task card photo containers. (4x6) After laminating the cards, cut them apart and store them inside a task box. There are 44 task cards so they should fill up about half of the box, leaving you room to store a dry erase marker, a small ruler (under 6") and an eraser. Each task card gives students an example of how to draw the line of symmetry. Provide students with the additional follow-up worksheets to expand understanding of symmetry and reflection. There is an assessment worksheet to test students as well.

Is it a line of **SYMMETRY**?

If yes, color the smiley face!
