# HOMESCHOOL CURRICULUM

## Product Features:

This is a bundle of following directions worksheets for students to build key listening skills. Each activity page includes thematic, developmentally appropriate exercises for K-2 students.

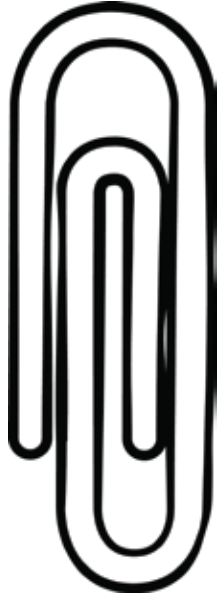

## Needs:

Students will need a set of colored pencils or crayons to complete the tasks.

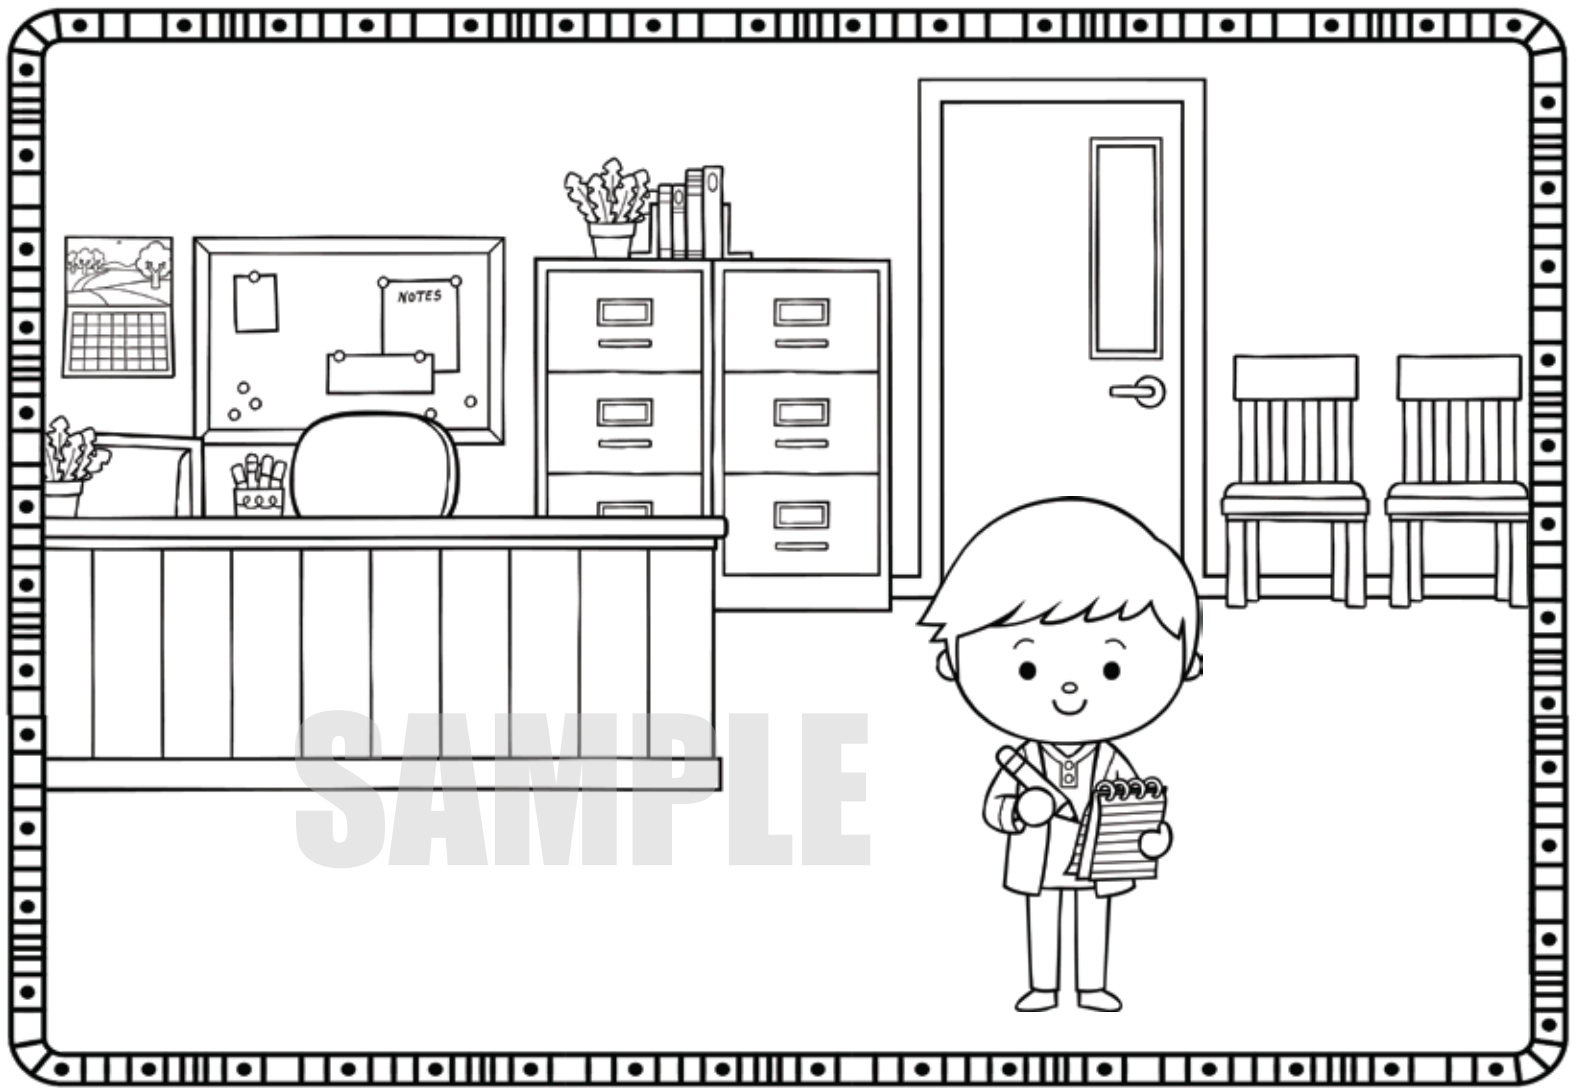

## How to Use:

We recommend using these activity pages on a daily or semi-daily basis. These sheets are great for morning-work stations, early finisher activities, or take-home resources. We suggest that you read the directions aloud to all students, giving them time to complete the task. For the majority of the sheets, if you'd prefer your students not have a copy of the instructions on their sheet, you can cut on the dotted line to remove the text. Students will only have the picture and you can read the text aloud. Older students can build independent skills by reading and following the directions on their own.
