Christmas Geoboard Activity Pack

Reindeer

Ask into some to complete the picture.

First, I used _____ bands.

Then, I added _____ more bands.

Challenge: Can you make the same picture using less bands?

I made a _____

Geoboard Math Mat

This geoboard mat tasks students with creating a picture, then adding more bands to create the second picture. Students answer basic counting and addition problems.

Geoboard Task Cards

These colorful task cards are great for creating your own math centers. Students chose a card, create the picture and answer the question. Follow-up with one of the worksheets below.

Reindeer

Color your model in the picture.

Which shapes do you see?

How many bands did you use? _____

Geoboard Shape Mat

This geoboard mat tasks students with creating the more difficult picture, then coloring the black line example. Students are then asked to identify different shapes they see.

GEOBOARD of the DAY!

Today, I made a _____

I used _____ rubber bands!

These are the shapes I see in my picture:

Geoboard of the Day

This simple version asks students to choose one of their pictures to draw, and answer the questions. Questions cover counting and shapes.

CREATE, COLOR, & DRAW

Create, Color, & Draw

Students are asked to create a picture, color the black-line example, and then to copy the drawing onto the blank grid. These are great for older students who do not need the full geoboard mat.

GEOBOARD of the DAY!

Today, I made a _____

I used _____ rubber bands.

I used _____ different colors.

I can graph the colors I used.

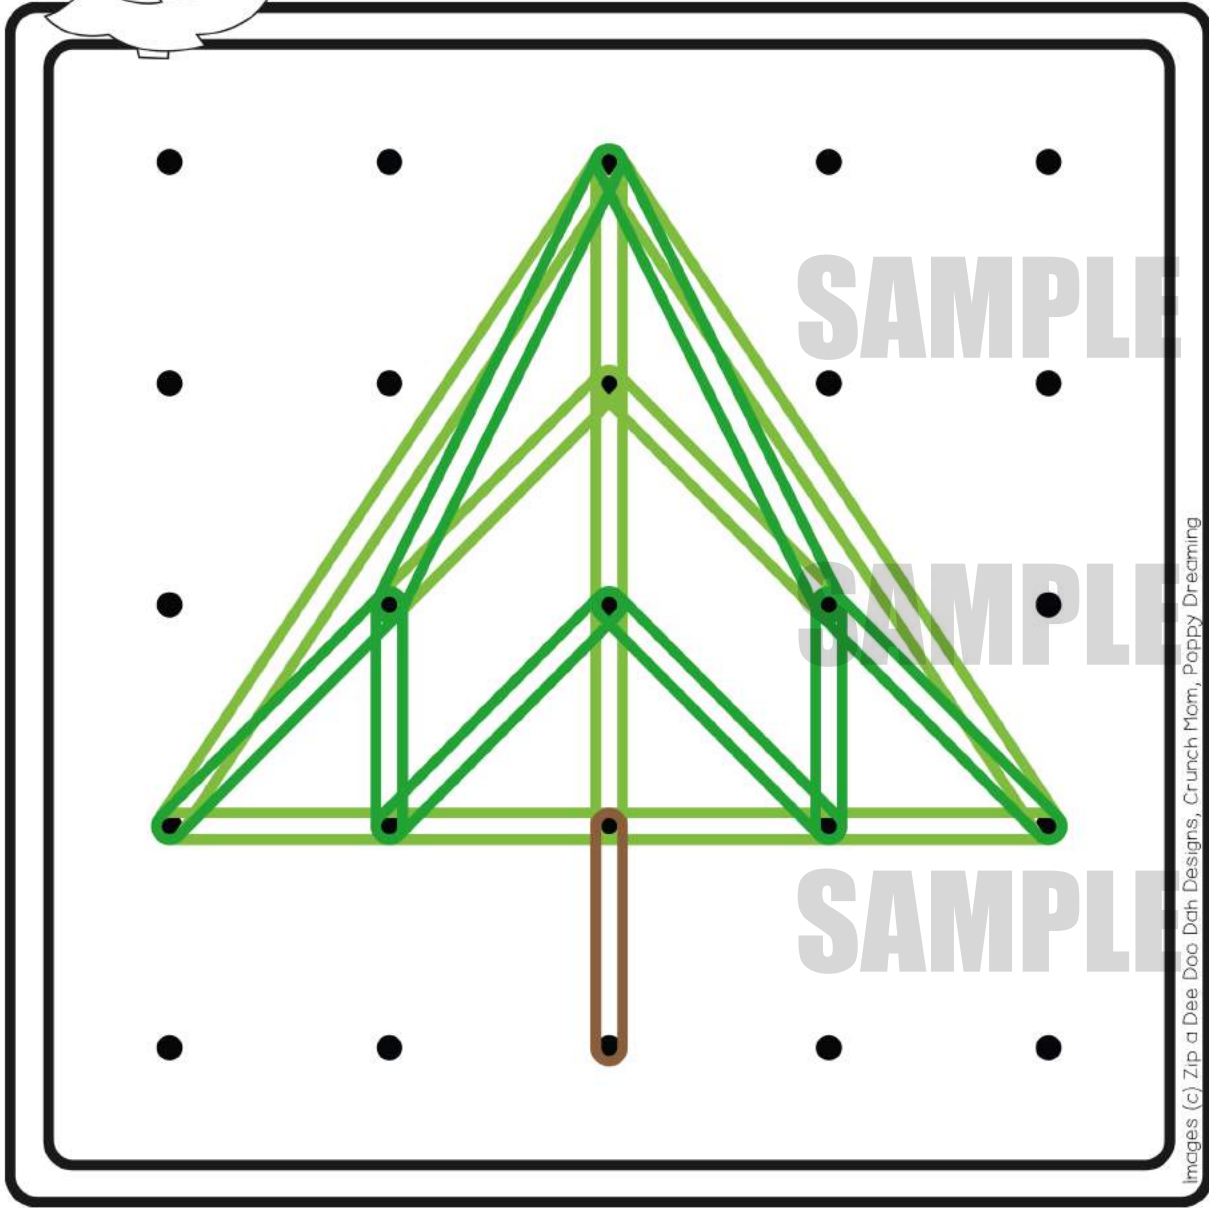

I can compare using <math><>></math>.

Geoboard of the Day

This harder version asks students to draw, write, count, tally, graph, compare, and find the shapes. This is great for expanding key math skills.

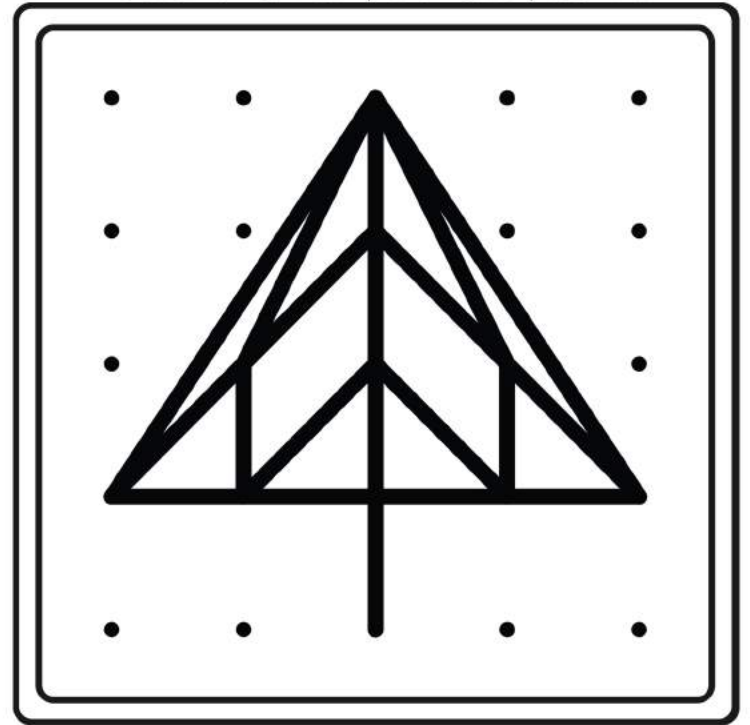

Christmas Tree
