What Our Customers are Saying...

This was a great resource for my 10, 8, and 7 year-olds. We printed out the cards, colored them, did research on each bird, and bound them into a simple book for each child. **They really enjoyed it and learned a LOT!**

by Hudson Talbott

This book takes a fun look at our Nation's state birds while providing children with interesting facts along the way. From Alabama's Yellowhammer to Wyoming's Western Meadowlark, each bird is a winner and each bird loves to show off the state it calls home. Hudson Talbott has created an inspired introduction to states and their birds. His vibrant, detailed illustrations infuse the birds interactions with energy and humor, making this a great way to spark kids interest in United States history, geography, and, of course, wildlife!
