Alphabet Pack: ASL Fine Motor Activities

REQUIRED MATERIALS:

- Laminator or Page Protectors
- Playdough in a variety of colors

What's Included:

This pack includes 52 alphabet task cards (on 14 sheets of paper) and 26 follow-up ASL activity sheets. There is also an ASL Fingerspelling Chart in the appendix.

How to Use:

These task cards are designed to fit perfectly inside standard task card photo containers. (4x6) After laminating the cards, cut them apart and store them inside a task box. There are 52 task cards so they should fill up about half of the box, leaving you room to store a dry erase marker or other elements. There are two sets of task cards included in this set. The first set shows children how to make the letter sign along with a beginning word picture to fingerspell. The second set gives children a beginning letter picture to make out of playdough, along with the fingerspelling of the word. For each letter of the alphabet there is an ASL activity sheet to expand learning. This sheet features three beginning letter signs as well as the fingerspelling for each. For example, Children will learn to sign "apple." Then, they will read "a is for apple." Next, they will fingerspell the word "apple." Finally, students will color a dot for each syllable in the word "apple."
